Registration	WalkingDisability_02	Suspend	N		Y		Suspending the privelages and ALL valid Handicap Placards
			Column definition				
		Module:					Highlevel area of ownership
		Screen Definition Name:					The action and entity that owns/relates to the data. Example: Gross Weight is related to a vehicle. EditVehicle would trigger a SO but not AddVehicle
		Field Name:					The data element that would initiate a Supervisor Override on the screen defined earlier.
		MA access to data element:					Denotes if the screen / data element is available to the MA. Example: NCIC indicator is controlled by the Title Bureau through a screen that will be available to only Title Bureau personnel.
		Notes:					Additional Information
